Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

ariete a capite arietis vſq; ad finē ſexti gradus eius. Terminū vero ve-
neris in ſex gradibus ſequentibus eſſe: tamē ſi fuerit iuppiter in princi-
pio ſexti gradus arietis non dicetur virtutem habere in termino vene-
ris ſubſequente ſed in ſuo: ⁊ ſicut interuallo non diſtat terminus a ter-
mino: ſic nec ſignū a ſigno. nam totus circulus gradibus diſtinguitur.
¶ Dixit hermes: cum aliqua ſtellarum fixaruȝ primi honoris fuerit in
gradu oriente oſtendit naſcentem magna ⁊ extranea ⁊ mirāda vltraȝ
parentes habiturū: ſm temperiē illi⁹ ſtelle: dicitur aūt temperies ſtelle
quod ipa ſimilē in terrenis exercet virtute: ſimilē dico virtuti quā in ter-
renis habet coniunctio aliquorū planetarū duorū. Dico aūt hoc dictū
hermetis verum eſſe ſiue ſit primi ſiue ſecundi honoris fixa: que tamē
parue latitudinis ſit ut achimecalaçel ⁊ aldebaran que ſunt primi ho-
noris ⁊ cor ſcorpionis que eſt ſecundi: que vero magne latitudinis eſt
ut aquila cadens que primi honoris eſt. Uel aquila volans que ſecun-
di eſt paruā virtutē in terrenis pōt exercere. ¶ Dicit aniriçi. ꝙ fixa pri-
mi vel ſecundi honoris cum gradu oriente in natiuitate aſcendēs: eā
dem habet virtutē quam habet in oriente quod falſum eſt. nam maior
eſt virtus longitudinis quā latitudinis. ¶ Albumaçar vero in iſagogis
ſuis maioribus multas ⁊ varias figuras enumerat cum vnaquaq; fa-
cie cuiuſq; ſigni aſcendentes ſm indos: ꝙ magis ridiculo quā veritati
accedit. Item albumaçar enumerat alias figuras ſm ptholemeū cum
faciebus ſignorum aſcendentes. quod verum eſt ſm quadragintaocto
figuras que ſunt in firmamento quas ptholeme⁹ enumerauit ſm diſpo
ſitionē quā habuerint in tēpore ſuo: nunc aūt ſm ſententiam ſuam lo-
ca mutauerunt: cum tñ ſm indorū ſententiā ſint imobiles. Ueritas aūt
ſic eſt ꝙ ſiue ille figure moueantur ſiue non: duodecim tātū earū conſi-
derare debemus que ſunt propinque çodiaco: nō vigintivnā ſeptentri-
onales nec quindecim auſtrales. ¶ Indi ī libro natiuitatū multas par
tes faciunt: quas omnes negligit ptholemeus niſi parteȝ fortune. Ego
autē in hoc libro enumerabo quas probauerūt viri huius artis ſcilicet
doromus: meſſahalla: andruçagar: his prelibatis nūc de propoſito di-
cendum eſt.

In primis ergo ſm tabulas probationū oriente inuen-
to domos quoq; ſm terre latitudinē coequa. ſm artem a
nobis in aſtrolabio traditam: nō ſm magiſtros aſtrono
mie quorum falſitatē in libro de rationibus tabularū
oſtendimus. Et cum duodecim domorū ſignram deſcri
pſeris ſcribe locū cuiuſlibet planete in domo in qua in-
